

CHATHAM COUNTY PUBLIC HEALTH DEPARTMENT *Division of Environmental Health*

Swimming Pool Supply Stores Near Chatham County That Stock Calcium Hypochlorite without Algaecides, Fungicides, or Stabilizers. They also stock test tablets, strips, or test kits to test water for chlorine.

Note: Inclusion on this list is not to be considered an endorsement of the particular business by the Chatham County Public Health Department. The suppliers listed simply reflect store locations near Chatham County. For more suppliers, please consult your yellow pages. Although this Division contacted each of these suppliers to inquire about availability of the specified calcium hypochlorite needed for well disinfection, it is advised that you call the supplier prior to visiting their store to assure they have the product in stock.
