The motion carried five (5) to zero (0).

Fire Contracts:

The County Attorney explained that previously, the Board adopted a standard contract for all of the fire departments that furnished fire protection services within their districts; that one method of furnishing fire protection is to contract with a Volunteer Fire Department; that

General Statutes generally provide that if there is an election that approves a tax within a particular district, the Commissioners are authorized and directed to levy tax on the district up to fifteen cents per one hundred dollar valuation and to use that money for provision of fire protection services; that since the Statues require the contract, then it is his feeling that all contracts should be standard; that a local situation that might require some small deviation, but generally the contract should be standard; and that he and the Fire Marshall reviewed and revised the Volunteer Fire Department contract.

Tom Bender, Fire Marshall, explained the differences between the contract and First Responder Rules and Regulations, insurance provisions and coverage. He explained that after the initial contracts were signed, some of the fire departments, in order to obtain loans through Farmer’s Home Administration, had to have
longer contracts with the County than were provided in the standard contract.

Frank Smith, Chairman of the Board of Directors of Silk Hope Fire Department, stated that it was their belief that a standardized contract could not be used by all fire departments in the County because different fire departments respond to different types of emergencies. He stated that they felt that contracts should be individualized to each fire department regarding the types of emergencies to which they are trained to respond and according to the departments’ future plans.

After further discussion, Commissioner Grimes moved, seconded by Commissioner Wilson to have the County Attorney contact the Attorney General’s Office for an interpretation of G. S. 69-25.4 as to whether “fire protection” covers all services listed in the document submitted by Silk Hope Volunteer Fire Department as a proposed contract. The motion carried five (5) to zero (0).

Mutual aid agreements will come before the Board at a later date.

**Fire Inspections/Fees for Services Within Municipalities:**

Commissioner Wilson moved, seconded by Commissioner Holland, to continue the fire inspections within the municipalities until such time a fee study is accomplished. The motion carried five (5) to zero (0).

It was decided that the County should beware of establishing a policy of applying for grants that have reoccurring debts but should be decided on a case-by-case basis.
