Hi Warren-- Thanks for your efforts to locate the gravesite believed to be on adjacent property to the parcels you are about to develop. CCHA is satisfied that nothing of import exists on your property and that, should anything be discovered, you will let us know. We appreciate your cooperation with our efforts to document Chatham history.

Beverly Wiggins
CCHA Preservation

Bev:

Thanks for your reply. The previous owners don't have any information on the grave. I will make sure that the workers look for any signs of a gravemarker. I think that the Planning Department does need a quick email from you on the property. Kim Tyson has taken over for Lynn Richardson so you can send it to Kim. Her email address is Kimberly.tyson@chathamnc.org. Also, the new name of the subdivision is Morgan Ridge in honor of the Morgan Family who lived on the land.

Thank you Bev,

Warren

Warren-- Thanks for the update. I've heard back from the person that others thought might have some info and he does not. I think you said the previous owners didn't have any info, didn't you? I appreciate your efforts. I think for now if you just alert your workers that there might be a gravemarker out there and to let you know if they come across it, that's the best we can do. If I find info anywhere else I'll let you know. If you need something from me for your approval process just let me know and I'll take care of it. Thanks for working with us. Bev
