UPDATES

Revenue Neutral:

The Assistant County Manager gave a report on revenue neutral that showed the tax rate was set correctly and was not too high. She stated that excluding discoveries and rollbacks, staff projections were 0.25 percent over the true revenue neutral rate, meaning the tax rate should have been set slightly higher than it was. She also explained that staff does not budget for discoveries and rollbacks because of the difficulty in projecting them accurately.

Non-Profit Funding Process:

The Assistant County Manager explained that they have reviewed their non-profit funding process; that she believes the process worked well this year but that there are opportunities for improvement; that they have outlined seven steps that they are going to take; that part of it will require Board action in the future and part will require staff work; that Chatham County and United Way of Chatham County have a long history of working together to streamline the process for non-profit agencies applying for funding; that both entities value the working relationship they have built over the last decade or so; that FY 2007 marked a true consolidation of the funding processes; that while they are pleased with how this process worked, staff is recommending several changes for next year to further strengthen this process.

She reviewed the recommendations as follows:

Recommendations for Strengthening
Joint Chatham County and United Way Funding Process

1. Conduct a needs assessment to obtain information on human services needs in Chatham County
2. Present findings to the Board of Commissioners during the January Budget Retreat; ask Commissioners to establish priorities for funding non-profit agencies – priorities can be broader than human services needs (e.g., economic development)
3. Volunteer panels will be separately recruited and appointed by Chatham County and United Way; volunteers will meet jointly to hear from agencies, but make decisions separately
4. United Way will be responsible for coordinating the panels, including corresponding with volunteers, arranging the panels with the non-profit agencies, etc., except for the duties specifically outlined below by Chatham County
5. Commissioners will appoint allocation volunteers for Chatham County
6. Staff will prepare a scoring mechanism based on Commissioner priorities for volunteers to use in the allocations process
7. The County and United Way will revise the joint application and jointly conduct a mandatory training session for non-profits in mid January to achieve greater uniformity of information and address concerns by last year’s volunteers and feedback from agencies
