

**CHATHAM COUNTY WATER
WARRANTY**

Project: _____

DEH Serial No. _____

I warrant against defects in workmanship and materials for the defined project. This Warranty will last for a period of one year following acceptance by Chatham County. During such warranty period, Chatham County shall have the right in an emergency, at its sole option, to make any necessary repairs or to have the same performed by contract labor, the cost of which shall be borne wholly by the developer. Chatham County may direct the Developer to make such repairs if Chatham County deems the problem minor or not likely to interrupt service to the customers. Failure of the developer to satisfactorily complete said repairs within two days after notice shall allow Chatham County to make said repairs, the cost of which shall be paid by the developer.

Exhibit B

If a developer is allowed to place a water main under or along a sidewalk (concrete or pavement) the Homeowner Association will be required to replace the sidewalk at their cost. There must be a Homeowner Association to allow this option.
